REPORTED UFO SIGHTING -

Report telephoned to this office at 14.10 on 26 Jun 97 by Section 40 Silloth, Carlisle, Cumbria, Section 40
Telephone: Section 40 .

At aprox 01.00 on the morning of Sunday 22 June, Section 40 and his wife were driving their Land Rover north from Ulverston to Silloth, using the unclassified road over Corney Fell.

Ahead of them, at a height estimated at 1000 feet, they saw three extremely bright lights, one to the left, one to the right and one in front, forming a huge triangle. The lights were of similar brightness to a welding torch and were flickering in an irregular manner. Section 40 described them as being identical to those he saw on a video of unexplained sightings in Scotland seen on a TV documentary on Monday or Tuesday this week.

Section 40 , formerly in the army but probably now in retirement, hesitated to make this report lest he be considered a crank, but in view of the proximity of Sellafield (aprox 10 miles NW) he decided to ring and say what he had seen in case of security implications. Section 40 can verify the report. Over to you!

Dear Sir

Further to our Telephone conversation on Sunday 22.6.97 regard to flying object that was seen, as you can see from enclosed sketch this is what my wife and I saw at the times shown. It only taken just ½-2 minutes from first sighting - final sighting. We did not hear any sound from whatever it was, it was decending very fast but much faster in the climb too final sighting.

WEEK BEGINNING 16 JUNE 1997

At 08:26, Section 40 from the West Midlands Police telephoned to say that he had received a "UFO" report from a member of the public. The sighting occurred at 02:36 on 16 June and was described as solid silver objects seen below cloud level. If the MOD required any further info, we should phone Section 40. He did not give the informant's name or area in which the "UFO" was seen.

ACTION: NFA required.

Section 40 called at 10:56. He said that he saw something in the sky that he first thought was a satellite but it was too bright and a metallic blue/green/yellow light came from it. He went indoors to get his binoculars for a closer look but when he emerged from his house the object was just a speck in the sky. He wondered if we could tell him what it was he saw. His telephone number is Section 40

ACTION: NFA required.

HOAX CALL! Section 40 telephoned claiming to be the MP for Folkestone & Hythe (real MP - Michael Howard QC) and the MP for Wales, Scotland and the rest of the world. Section 40 phoned at 12:16 to report a "UFO" he had seen at 2:07am on June 4. He could only describe it as something from somewhere else. It was not an aircraft or a star, it came from the north-west direction of his home, it was 20° from the ground, it was circular with 4 - 5 lights on its perimeter and it travelled in a northerly direction. It disappeared through the cloud before he could waken his wife. His address is Section 40 Telford. Tel: Section 40

ACTION: Report held on file 64/2 part E enc 116/1.

Section 40 [redacted] phoned at 12:51 to report a "UFO" she had seen at approximately 2pm on 12 June along the West Sussex/Hampshire border. It was 100 feet high in the sky, which was clear so it was quite close. It was a circular shape and had three lights on it and it moved quite slowly. She would like an explanation if possible but understands that we will probably not contact her.

ACTION: NFA required. A report cannot be made as the location is too vague.

Section 40 telephoned at 12:22. He stated that in the early evening of 11 June, he was sitting in his living room when a man walked in and layed on his quilt. (Section 40 sleeps in his living room and the bed is always made up.) The window then went all white and the man on the bed whooshed through the window. Section 40 Section 40 telephoned the police who wouldn't come to his house because they thought he was "a nutter", so he phoned Scotland Yard and the Fire Brigade. He wanted the police to see the quilt where the man had layed because the indentation showed that the person just lifted off the quilt without getting up from it in a normal way. Section 40 stressed that he was not a crank and was not on drugs. He failed to leave an address or phone number.

ACTION: NFA required.

Section 40 telephoned at 13:54. On 11 June at 11:30pm her and her husband saw strange lights over the Isle of Wight. Her telephone number is Section 40 No further details were given.

UFO SIGHTING.

Station : Otley

To: Superintendent [redacted] Weetwood

Sir,

I was today allocated an enquiry to visit [redacted], a cameraman for Yorkshire Television of [redacted] tel [redacted] I enclose the initial log for your attention. At 2010 I spoke to [redacted] at his home address, and would say that he is a man of reasonable standing and good education. I interviewed him and recorded the following details in accordance with the action form (also enclosed).

1. [redacted] viewed the object for about 30 seconds before it disappeared behind a tree - he had then to carry on with his filming.

2. There was one object visible to him - a long cylindrical object, extremely bright (brighter than an aircraft with sun reflecting on it) silvery white in colour, no noise, no vapour trail. [redacted] states that he had noticed planes at different altitudes all morning up till the sighting and that this was definitely not an aircraft.

3. [redacted] was filming for Yorkshire Television at Greenwood Farm, Asquith near Otley.

4. He was outdoors.

5. He was stationary.

6. He saw it with the naked eye.

7. It was travelling North to South.

8. Viewed at around 45°.

9. [redacted] suggests that the object was around 20,000 feet.

10. The object moved steadily until his friend [redacted] saw it when it became stationary, hovered and changed colour.

UFO SIGHTING. To: Attention PC Section 40 Otley Police Station

In accordance with your instruction I have visited Section 40 Section 40 Greengates, Bradford, at 12.00 hours today, telephone no. Section 40 is employed by Yorkshire Television as a Prop Master, and has worked for them for 26 years. He appears very well educated and articulate. He was interviewed in connection with the UFO sighting on Monday 9th June 1997 at approximately 11.00 hours, with details recorded in accordance with the action form.

1 In all, it was viewed by Section 40 between 2 and 3 minutes. After first observation, the object moved behind a tree, which was obstructing his view. He then moved, when the object did not pass the other side of the tree. The object was stationary behind the tree, changing colour from silver to blue, and then back to silver.

2. There was only one object visible. It was a long cigar/oval shaped. It was a dark grey/silver colour, when moving. When it was stationary behind the tree, the silvery colour became bright, then changed to blue, and then back to silver. No sound or smell, or any vapour trail.

3. Section 40 was working for Yorkshire T.V filming at Askwith near Otley, he knows the location as Section 40 house.

4. He was outdoors.

5. Stationary when first seen. He was moving when the object went behind the tree out of his sight.

6. Naked eye. No camera shots of the object were taken.

7. Not sure, but Section 40 said North to South direction.

8. Viewed at 45°.

At 09:11, Section 40 telephoned to report an unusual sight in the sky above her home, which is in Suffolk. At 11:55pm on 29/05/97, she saw 10 - 20 objects that were very far off. She looked through binoculars and saw that the objects were flashing red, orange and green like traffic lights. The objects were stationary and silent. Section 40 her husband and her daughter (aged 27) saw the lights until 1:30am. She phoned RAF Mildenhall and they told her they had no military aircraft in the sky that could account for the sighting, and there were no exercises going on that they were aware of. Section 40 also contacted Ipswich Police who said that no other "UFO" reports had been made. She wondered if we could tell her what the lights in the sky were. She left her telephone number but not her address. Tel: Section 40

ON FLIGHT Section 40, DUB - AMS cruising at FL 370 and cleared direct to GOLDD POSITION when we both noticed an unusual contrail on our left hand side SSW - also heading in towards GOLES We asked ATC 131.05 if the A/c was military as the trails appeared as if rolls or unusual flying was being carried out in the area and at our level. They had no knowledge or indication of the A/c. We were in small condition VMC the wind was 310/30 [TIME 1026Z] approaching GOLES we entered and left the wake of the trail, and then the wake paralleled our track at FL 370, heading ± 100DEG, TRK GOLES/BLUFA, approx 20-30 yards to our right, Further information requests from ATC about the A/C which appeared to descend/turn and accellerate away from us and on approaching the Dutch Boundary it faded into the distance. I requested if the Dutch had seen any A/C in their area which they had not. London ATC again made contact and confirm that their military had no A/c in the area and now will to investigate the incident with this report to be sent to MILITARY SUPERVISOR, DISTRESS + DIVERSION CELL RAF

"UNIDENTIFIED" AIRCRAFT REPORT BY AER LINGUS CREW - 18 APR 97

1. As agreed in recent exchanges of correspondence concerning "UFO" policy, Sec(AS) is under remit to forward any "unidentified" aerial activity reports received by credible witnesses to you.

2. Attached please find a copy of a report (which we only received this week) of an unidentified aircraft made by the crew of an Aer Lingus flight from Dublin to Amsterdam on Friday 18 April. On the face of it this would appear to be a flight safety issue and one on which the CAA would have the lead.

3. As yet we have received no enquiries from members of the public about this matter, but should there be anything in this of particular interest to either of you then I should be grateful if you would keep Sec(AS) in the picture.

Sqn Ldr [redacted] from Boscombe Down [redacted] phoned to say he had received a report from a [redacted]. He gave brief details. I phoned [redacted] for a fuller picture and [redacted] home address. She saw a saucer shaped object over the trees in her back garden at 2145 on 11 April. It was silent, hovering, it had red, green and blue lights on it and her four children saw it too. Her address is: [redacted] Ferndown, Dorset. Tel: [redacted]

16/04/97

Sqn Ldr [redacted], CRO Honnington, rang and spoke to KP. In accordance with standing instructions a Junior Technician [redacted] reported to him that at 2110Z on Tue 11 March he saw something he thought he ought to report.

A mile to two from Honnington he saw a light fly across the sky like a flashing camera 200 ft off the ground and it was followed 30 seconds later by a low flying jet.

Discussion with the CRO concluded it was most likely two aircraft and he did not see the first aircraft clearly. No concerns raised by CRO, just thought it ought to be highlighted for the record.

ACTION: NFA.

ENCLOSURE 72/1 UNDER

WEEK BEGINNING 1 APRIL 1997

01/04/97

Section 40 phoned at 11:16 to report a sighting. On 31/03/97 at 10pm she and her partner, Section 40 saw lights in the sky which were white then turned green, red and blue. They stayed in one position for a while then moved from left to right. In an hour they had moved across the sky. There were planes in the sky at the time but she didn't think it was a plane or a helicopter as it hovered in the same place for so long. Her address is: Section 40 Section 40 Didcot, Oxford. Tel: Section 40

ACTION: Report held on file 64/2 part E enc 70

Section 40 telephoned at 11:56 to report a sighting on behalf of her daughter. At 11:45pm on 31/03/97, she saw an object in the sky with pieces of fire coming from it. It was heading towards two petrol stations and she and the 12 other witnesses thought it was going to crash into the garages. It wasn't the comet as she could see that in the sky at the same time. She thought it might have been a military aircraft in some sort of trouble. Her address is: Section 40 Hemel Hempstead, Hertfordshire. Tel: Section 40

ACTION: Wrote to Section 40 informing her that there were no military aircraft accidents or incidents that could have accounted for the sighting. See file 64/3 part I enc 33 for reply and file 64/2 part E enc 71/1 for copy of "UFO" report.

A switchboard operator telephoned at approximately 11:00am and said that she had Section 40 on the line. She felt that she couldn't put him onto the answerphone as he is an educated person and he wanted to speak to someone, not leave a message. I asked her to put him through to the answerphone and no other number as we do not make exceptions for anyone. At approximately 2pm, the same switchboard operator phoned and said that Section 40 was on the line again. He told the operator that he had left his details on the answerphone and no-one had phoned him back yet. He had not left any message at all on the answerphone.

Section 40
Gp Capt from Abbey Wood phoned at 10:42. He had seen Section 40 Section 40 name linked to a "UFO" document/article and needed to get in touch with Section 40 regarding a different matter. Gp Capt Section 40 left his number Section 40 and I telephoned him and passed on Section 40 extension.

Would this be the kind of thing best replied to by MoD? If so I'd be happy to pass the original on to you.

I should be grateful for your advice.

Dear Sir/Madam

Re: Report of a UFO Sighting - Section 40 Burslem, S-o-T, Staffs

I forward for your information details of a reported Unidentified Flying Object sighting by the above named on 29th March 1997, The details are as follows:

1. Three objects (lights) orange/red in colour with no distinctive shape about 500 yards apart of each other.

2. He was in the back garden of his address, Section 40 Section 40 facing the North West, when the objects in unison moved from left to right in a South to North direction at speed.

3. The objects were observed for 2-3 seconds with the naked eye.

4. The actual address is described as being above the old Town Hall in Burslem, Grid Reference Section 40

5. Objects were observed at an angle of 65 to 75 Deg with the objects being just above what little cloud there was and as stated only moving from left to right.

6. Section 40 states it was a clear night with good visibility and the odd cloud patch.

7. No lights were illuminated from the Port Vale Ground, with no other possible explanations. The lights from Silverdale Colliery can not be seen and there are no major high buildings or radio mast or aerials within Section 40 line or sight.

8. Section 40 has not offered any of his background information when asked but has stated he doe snot partake in part-time astronomy but was merely looking for the Comet "Hale" Bop.

The person dealing with this correspondence is:

The informant Section 40 requested from my officer a reply to this report and stated that it was his impression that sightings of this type would be filed away as "Top Secret". I have indeed written to him and advised him that the matter has been referred to yourselves.

Yours faithfully

WEEK BEGINNING 17 MARCH 1997

17/03/97

Section 40 phoned at 10:16. She runs a UFO group in Southend, Essex and has received some information that she believes to be defence related. She stated that in the area of Machrihanish (Mull of Kintyre), the Aurora has been seen taking off, and black triangle shaped aircraft with glowing engines have been spotted which has resulted in people submitting UFO sighting reports. She also stated that stealth pilots have information projected onto the retina of their eye and can control their planes with their thoughts when wearing a special helmet. She wants the MOD to telephone her as soon as possible on Section 40 so she knows "which avenue to go down".

ACTION: Section 40 Sec(AS)1, is aware of activity at Machrihanish and advised us to contact Section 40 and ask her to write to Sec(AS)1 with her concerns. Sec(AS)1 will then reply to her directly.

At 14:43 Section 40 from the Stroud Journal newspaper telephoned. He has received reports of a large saucer shaped object with blue flashing lights around the side seen over Hampton Common on Friday evening (14/03/97). He would like us to tell him if there was any activity over the Common so he can pass this information onto his readers. If we contact him he will give us the name of the person(s) who made the report. Tel:Section 40

ACTION: Phoned Section 40 DPO and asked him to telephone Section 40 Section 40 and explain MOD's role, explain that we do not provide an aerial identification service and that the MOD did not receive any other reports for 14 March.

19/3/97

A man phoned at 10:28 but did not leave his name. He said that at 8:40 this morning he saw a small object moving in a very strange way over Birmingham Airport. He reported it to Birmingham Airport at 9:00 and he saw the Red Arrows fly over at 9:30 but they would not have accounted for his sighting. He invited us to call him on Section 40 if we wished to do so.

ACTION: Report held on file 64/2 pt E enc 61
NFA required.

20/03/97

Section 40 from Fife telephoned at 9:39. Since 1979 he has followed "events" in central Scotland and since 1995 he has passed information onto the Central Scotland Police Office. He told them

that, based on his past findings, a UFO was due to land on 14 September 1996 and that they should pass on any reported sightings that came in for 14 Sept or 7 days after that date. He heard nothing from them but has found out that two women saw a UFO on 25 September 1996 a mile away from the spot he predicted one would land. He found this so amazing that he wanted to let the MOD know and invited us to phone him on Section 40 if we wished to do so.

ACTION: NFA required.

Section 40 phoned at 3:16pm to report a UFO. He came home from work at 4am and saw a large lit up blue triangle shaped craft over his back garden. It was silent, was about 200ft in length and was lit up at each corner. Dogs in the area were barking which he said was unusual. The object was hovering about 300-400ft in the air, then it shot off and disappeared. It left a silky white substance on the tree tops, and he has got some of this in a jar at home. The total sighting lasted for about 3 minutes. Section 40 lives in Section 40 Birmingham and his telephone number is Section 40

ACTION: Report held on file 64/2 pt E enc 60
NFA required.

21/03/97

A female phoned at 1:44 to report a sighting seen above Newmarket. She said she would phone back later to give more details like the time and her address.

I am the above named person and I live at the address written on my wife's family.

At 7pm on Sunday the 9th of February 1997 I was at the rear of my house that overlooks Section 40 [redacted] I was with my two daughters.

Something caught my eye in the sky so I looked up and saw a blue (in colour) object spherical in shape with blurred edges and a more prominent solid blue colour in the centre the object travelled from the direction of the railway over our house towards Moors Hill in a South westerly direction.

What amazed me was the speed of the object it flashed overhead, I had it in sight for no more than two seconds, the object made no sound what soever.

I saw this object with my naked eye I would estimate that the object was not less than 1000' up I judged this with the height of the hill all the surrounding buildings.

At the time the weather was fine it was good clear visability. I for one I

Section 40 WAS DRIVING FROM K.LYNN TO WATLINGTON "THE BACK WAY" WHEN HE SAW THE LIGHTS. CURIOUS, BECAUSE THE LIGHTS WERE SO BRIGHT, HE STOPPED HIS CAR AND INITIALLY WOUND DOWN HIS WINDOW. THERE WAS NO NOISE SO HE SWITCHED HIS LIGHTS OFF + ENGINE OFF AND GOT OUT OF THE CAR. SILENCE. THEN THE BRIGHT WHITE LIGHTS WENT OUT LEAVING THE GREEN + RED LIGHTS. Section 40 WAS DISTURBED + GOT STRAIGHT IN HIS CAR + DROVE HOME.

Section 40 SOUNDED QUITE A NORMAL GUY AND WAS OBVIOUSLY UPSET BY WHAT SEEMED, TO HIM, SOMETHING V. UNUSUAL.

I EXPLAINED THAT IT COULD HAVE BEEN OUR NIGHT FLYING AIRCRAFT. THE BRIGHT LIGHTS THE LANDING LIGHTS WHICH WERE SWITCHED OFF AFTER THE AIRCRAFT HAD MADE ITS APPROACH. THE LIGHTS WERE STATIONARY AS THE AIRCRAFT FLEW "TOWARDS" (ISH) HIM. THE LIGHTS WERE V. BRIGHT IN A V. DARK STARY SKY AND APPEARED MUCH CLOSER THAN THEY ACTUALLY WERE, HENCE NO NOISE.
